Receipts for Making Br. Sage's Untarrh Remedy and Dr. Pierce's Golden

Something over a year since, a periodical issued in Berlin, Prussia, and laying claims to a scientific character, published what was represented as being the formulæ or receipts for making Dr. Sage's Catarrh Remedy and Dr. Piecce's Golden Medical Discovery. The people were left to infer that these had been deducted from a careful chemical analysis of the medicines, which are rapidly growing in popular nedicines, which are rapidly growing in popu lar favor in that as well as in this and most other civilized countries. The receipts were evidently invented by those jealous of the reputation and large sale which these medi-cines are rapidly acquiring and who are pecu-niarily interested in endeavoring to check their sale. So ridiculously preposterous are those receipts that medicines compounded after them could never have gained any reputation or sale in any country, for they would be so caustic, poisonous, immediately and positively njurious, as in every case to be promptly con-emned by the people on the first trial as mis-rable. dangerous and wicked humbugs. with a nowever, that the cogns receipes were so ridiculously preposterous as scarcely to have been believed by the most unscientific, thoughtless and unsuspecting people, yet strange and incredible as it may seem, a paper of high scientific pretentions, published in this country, copied the fletitions receipts from the German paper. This they evidently did should have been written by a southern consideration, given by an intelligent mind, to the receipte and the properties and effects of the mixtures that would result from such a compounding of well known caustic and poisonous chemicals and drugs, would have condemned them as bogus fabrications, and the pretentions publishers of the paper that originally inserted them, as either knaves or fools. On my attention being called to the matter, in order that some thoughtless a over credulous people might not be deceived and misled by seeing such an announcement ccipts were utterly false. My affidavit was sent to the publishers of the paper into which the bogus receipts had been copied, and in a subsequent issue an editorial notice was given of my denial. But, notwithstanding such cor-rection and denial, made under oath, certain edulous, were thereby given the hint, that my medicines were universally popular, b tising for sale bogus receipts for maki tem, they could get lots of ignorant people bite at their bait.
